

SPECIFICATIONS AND COVERAGE CHART

Christopher Peacock Paint colors and quality can only be achieved by using our paints. All of these premium colors were developed by using several (between 4 and 8) colorants to create a unique vitality and complexity of color. Attempts to match these colors with other manufacturer's paints have produced consistently disappointing results.

DISCLAIMER

The colors shown on this card are derived using the paint from the factory; however, actual paint colors may slightly vary from this card. A sample color pot is recommended to confirm your color choice. Written and verbal advice is given in good faith but without warranty as methods and skill of application, as well as site conditions, are outside our control. Coverage figures are given for guidance only.
